Crafting Excellence in Concrete Flooring & Stone Cladding

Welcome to KMC Flooring, a leading specialist in decorative concrete flooring and premium stone cladding solutions, part of Al Khalsa Marble & Ceramic Works. Based in Ras Al Khaimah, UAE, we bring innovation, durability, and aesthetic appeal to every project we undertake. With years of expertise, we have established ourselves as a trusted name in the industry, delivering high-quality flooring and cladding solutions for residential, commercial, and industrial spaces.

At KMC Flooring, we specialize in stamped concrete, exposed aggregate, sandcrete flooring, polished concrete, micro-topping, terrazzo concrete, and resin aggregate. Our expertise extends beyond flooring to natural and industrial stone cladding, offering seamless integration of style and functionality. Whether you need a contemporary, rustic, or industrial look, we have the expertise to bring your vision to life.

Why Choose Us?

- **Unmatched Quality** – We use premium materials and cutting-edge techniques for long-lasting results.
- **Innovative Designs** – From modern polished concrete to artistic stamped patterns, we create unique flooring solutions.
- **Expert Craftsmanship** – Our skilled team ensures precision and perfection in every project.
- **Customer-Centric Approach** – We prioritize your needs, delivering customized solutions tailored to your space.
- **Sustainable Solutions** – Our eco-friendly flooring options ensure durability without compromising the environment.

At KMC Flooring, we don't just build floors – we craft surfaces that inspire. Whether it's a luxury villa, commercial showroom, industrial warehouse, or outdoor landscaping project, our commitment to quality and innovation sets us apart.

Stamped Concrete

Durable & Aesthetic Flooring Solution

Stamped concrete is a versatile and cost-effective flooring solution that mimics the look of natural stone, brick, tile, or wood while offering the strength and durability of concrete. Ideal for driveways, patios, walkways, pool decks, and commercial spaces, stamped concrete enhances surfaces with decorative textures, patterns, and colors, creating a stylish and long-lasting finish

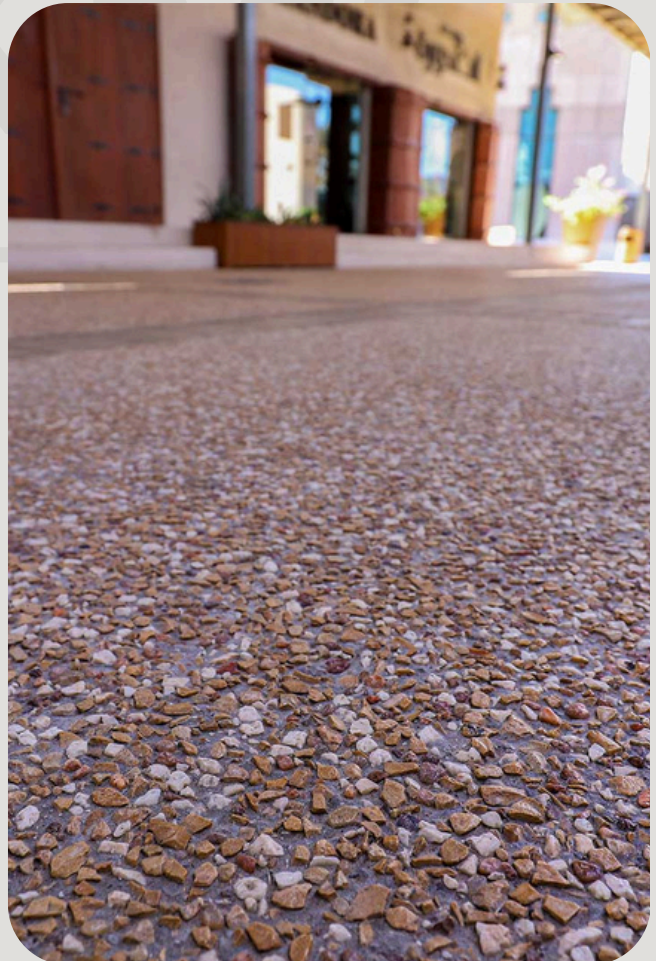

Exposed Aggregate

Aesthetic & Slip-Resistant Flooring

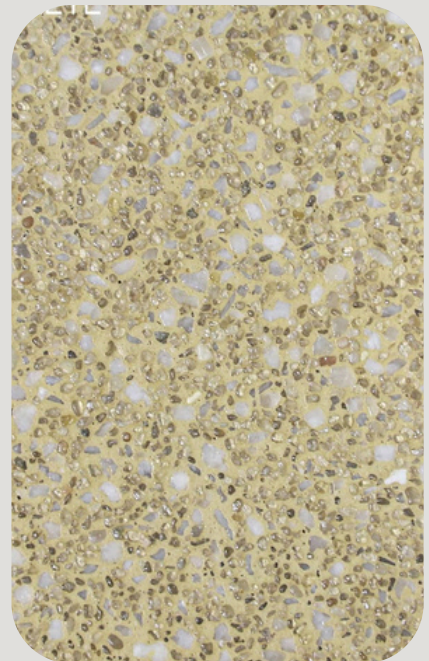

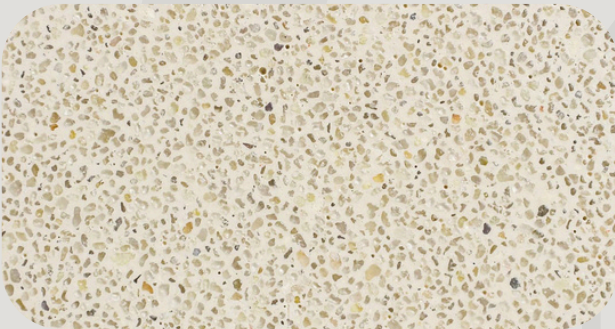

Exposed aggregate concrete is a stylish and slip-resistant flooring solution that highlights natural stones or pebbles within the concrete surface. It offers exceptional durability, weather resistance, and a unique textured finish, making it ideal for driveways, patios, walkways, and pool decks. At KMC Flooring, we deliver customized exposed aggregate surfaces

Sandcrete Flooring

Strong & Cost-Effective Solution

Sandcrete flooring is a durable and economical option made from a mix of sand, cement, and water, offering high strength and versatility. It is widely used for industrial floors, warehouses, sidewalks, and outdoor spaces due to its smooth finish and long-lasting performance. At KMC Flooring, we provide expertly crafted sandcrete floors that ensure stability, affordability, and resilience

Resin Bound

Seamless & Stylish Surfacing

Resin bound aggregate is a premium flooring solution that combines natural stones with high-performance resin, creating a smooth, durable, and permeable surface. Ideal for driveways, pathways, patios, and commercial spaces, it offers UV resistance, slip resistance, and a low-maintenance finish. At KMC Flooring, we deliver custom resin bound surfaces that provide long-lasting beauty, strength, and eco-friendly drainage solutions.

Microtopping

Sleek & Modern Concrete Finish

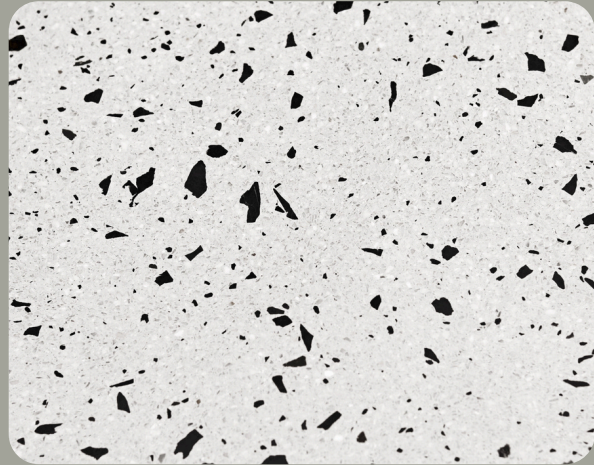

Microtopping is a thin, seamless concrete overlay that creates a smooth, contemporary surface with a sleek, minimalist look. Ideal for indoor and outdoor floors, walls, and countertops, it provides high durability, versatility, and a polished aesthetic. At KMC Flooring, we offer custom microtopping solutions that transform spaces with a refined, elegant, and long-lasting finish.

Terrazzo Concrete

Timeless & Elegant Flooring

Terrazzo concrete is a decorative and durable flooring solution made from marble, quartz, glass, or other aggregates set in concrete and polished to perfection. Known for its seamless finish, longevity, and customizable designs, it is ideal for luxury homes, commercial spaces, hotels, and lobbies. At KMC Flooring, we craft high-quality terrazzo floors that offer aesthetic appeal, durability, and low maintenance.

Broom Finish

Textured & Slip-Resistant Surface

Broom finish concrete is a cost-effective, durable surface created by applying a broom to freshly poured concrete, resulting in a textured, slip-resistant finish. Ideal for driveways, sidewalks, patios, and industrial areas, it offers excellent traction and weather resistance. At KMC Flooring, we deliver high-quality broom finish concrete that ensures long-lasting performance.

Natural & Industrial Stone Cladding

Durable & Aesthetic Wall Solutions

Stone cladding enhances walls with a natural, elegant, and long-lasting finish, using premium natural or industrial stones. Ideal for interior and exterior facades, feature walls, and commercial buildings, it provides superior durability, insulation, and weather resistance. At KMC Flooring, we specialize in custom stone cladding solutions, delivering a sophisticated and timeless look for any space.
